

EU DECLARATION OF CONFORMITY

Packaging and Packaging Waste Regulation

Pursuant to Article 39, Annex VIII of Regulation (EU) 2025/40 (PPWR)

We, SimplyBrands-SCP, hereby declare under our sole responsibility that the packaging used by our factory for delivery of our bulk cables and related materials are designed in accordance with the principles of Regulation (EU) 2025/40 of Packaging and Packaging Waste (PPWR) regulated by the European Union.

Description of Packaging

Regarding all bulk cables packaged in cardboard boxes, wooden spools, and transport wrapped pallets as follows: Corrugated carton (paper-based secondary / transport packaging) + recycled-wood composite pallet (press-wood / particle-wood transport pallet, non-solid-wood), non-food-contact shipping packaging

Material composition:

- Corrugated carton: Corrugated Cardboard
- Pallet: Recycled wood composite (compressed wood particles / wood-based composite material, no solid-timber components)

Weight: Carton: 1030g/unit; Pallet: 22kg/ unit

Application: Non-food-contact transport & shipping packaging

Document No.: PPWR-DOC-PAP-RWOOD-0001

Version: V1.0

Reference to Technical Documentation File No.: TD-PPWR-PAP-RWOOD-0001

Date of issue: 2026/8/12

- EN 13430:2004 Packaging-Requirements for recoverability by material recycling
- Heavy-metals test report No._SHAEC26006604537 (Pb, Cd, Hg, Cr(VI) ≤ 100 mg/kg total for carton printing ink and composite-pallet raw materials & adhesives)
- Recyclability assessment report No._TD-PPWR-WO-001
- Packaging minimization / over-packaging risk assessment document No.TD-PPWR-R-001
- Material origin statement for recycled-wood composite pallet No._TD-PPWR-OV-001_

Essential Requirements:

The original primary packaging of the declared device complies with the essential requirements concerning composition, recyclability, reusability, and the minimization of environmental impact as defined in Regulation.

Heavy Metal Restrictions: The concentration levels of heavy metals (lead, cadmium, mercury, and hexavalent chromium) in the packaging materials do not exceed the permitted threshold values specified in Article 5 of the Regulation, i.e. ≤ 100 ppm.

Waste Management: Measures have been implemented to support the reuse, recycling, and environmentally sound management of packaging waste in accordance with the obligations of the Regulation.

The conformity is demonstrated according to Annex XVII of regulation EU/2025/40.

Our company continuously monitors regulatory developments and will ensure full compliance with the PPWR requirements once the regulation becomes fully applicable.
