PRO SERIES

# UNSHIELDED 24 PORT FRONT-LOADABLE PATCH PANEL

## Premium Unloaded Modular Keystone Patch Panels

S45-2024UP Unloaded Patch Panel allow you to easily customize your network panel in the field. This allows you to maximize the use of panel space with multiple configuration options for copper, fiber, and multimedia keystone modules. S45-2024UP Unloaded Patch Panel is available in standard 1RU size. Mounts to any 19inch rack, cabinet, or wall bracket. Comes with rear cable management bars and port labels. Accepts internationally standardized keystone snap-in modules.

## Detachable Front Panels for *Quick Installation & Easy Access.*

No need to remove entire panel.  
Our front-loadable design makes  
your life easier.

\*Keystone Jacks  
sold separately
