Faster Installation Time:

- High-performance 10Gbps up to 60m length channel
- 26awg Stranded Bare Copper Conductors for maximum flexibility
- Double shielded to protect against EMI and RFI interference.
- Spline-less design provides greater flexibility and small 6.0mm cable diameter.
- Fire Safety Rated LSZH – EN50575 EuroClass Dca-s2,d2,a1
- Indoor/Outdoor Rated – UV Sun Resistant LSZH jacket

Applications:

- Home Networking
- Security Camera Networks
- Commercial & Institutional Installations
- Areas with higher EMI/RFI interference
- Installations requiring greater cable flexibility and smaller OD footprint
